

Yamada Bulletin

Change in the Material of Throat Bearings

Thank you for your continuous support to YAMADA.

We would like to inform you the material of the throat bearings for the following AODD pumps has changed from MC Nylon to POM due to the material availability.

- NDP-20/25 Series
- NDP-P20/P25 Series
- NDP-40/50/80 Series

The new throat bearings have already been used from the production in June, 2021. Consequently, the parts codes have also changed as per table below;

	Old Code	New Code
Throat Bearing for NDP-20/25	772703	780324
Throat Bearing for NDP-P20/25	772931	780326
Throat Bearing for NDP-40/50/80	772689	780325

However, the parts lists on our website have yet to be updated. Therefore, we will again inform you once we change them.

Please also note there will be no change in the pump quality or performance due to this material change.

Please contact intl@yamadacorp.co.jp for further information.
