## New Hand Bucket Pumps

*This document contains 3 pages including this page*

Thank you for your continuous support to YAMADA.  
We are pleased to inform you that we will launch four new upgraded hand bucket pump series!!  
The main advantage of these new models is the improved operability because the new carrier called S-200, which has a longer handle, will be introduced to those series!! On top of that, there are some other great points and some changes for each series!

Please see below for more details of the comparison between the current and the new models, and the features and changes of each new series!

### Comparison between the current and the new series

The table below shows the comparison between the existing and the new series.

Existing Models			New Models			Features & Changes	Points to note
Product Number	Application	Model Number	Product Number	Application	Model Number		
880571	Oil pump for pail	HOP-20	881243	Oil pump for pail	HOP-200	Better usability due to the new carrier. Applicable to tall plastic pail cans.	
880626	Oil bucket pump	STB-60EXS	881244	Oil bucket pump	STB-700	Better usability due to the new carrier. The paint color is changed.	Does not include a flow meter. It is sold separately as an option.
880627	Oil bucket pump	STB-70EXS					
880624	Grease bucket pump	SK-77EXS	881245	Grease bucket pump	SK-700	Better usability due to the new carrier. The paint color is changed.	
			881246	Grease pump for pail	HGP-200	Better usability due to the new carrier. Applicable to tall plastic pail cans.	It does not have a dedicated cabinet. Please mount directly onto steel pail cans.
851003	Carrier	S-20	855470	Carrier	S-200	It has an extended handle for improved usability.	The finish is changed from painting to plating. Self-assembly type.

## <Features & Changes of Each New Series>

### ■HOP-200

This is a new hand bucket pump designed for oil with better usability due to the new carrier S-200! In addition, HOP-200 is applicable to tall plastic pail cans!!

【HOP-20】

【HOP-200】

### ■STB-700

It will be renewed from the existing oil hand bucket pump “STB-60EXS/STB-70EXS”. Again, this new series has become more user-friendly due to the new carrier with the extended handle.

Also, the color will be changed from light blue to a chic dark blue color.

(Please see the pictures below for the color changes)

One point is, however, that the STB-700 does not include a flow meter.

It is sold separately as an option (Part No. 805339).

【STB-70EXS】

【STB-700】

### ■SK-700

It will be renewed from the existing grease hand bucket pump “SK-77EXS” in terms of the better operability due to the new carrier S-200!

Also, the color will be changed from light blue to a chic dark blue color (please see the pictures below for the color changes).

【SK-700】

#### ■HGP-200

This is a new grease pump with better usability due to the new carrier S-200!  
On top of that, this is also designed to be mounted directly onto steel pail cans,  
which is a very new feature!

The other change is that the lid is painted dark blue.

However, please be informed this new model does not have a dedicated cabinet.

【HGP-200】

The new models stipulated above will be launched from Oct 1<sup>st</sup> 2025.

The existing models will be discontinued once our inventories are sold out.

Additionally, the prices for the new series will be different from the existing ones.

Our staff will contact you shortly regarding the details of the pricing.

If you have any questions, please feel free to contact us!
