Design Change of Electric Grease Lubricator EPL series

Thank you for your continuous support to YAMADA.

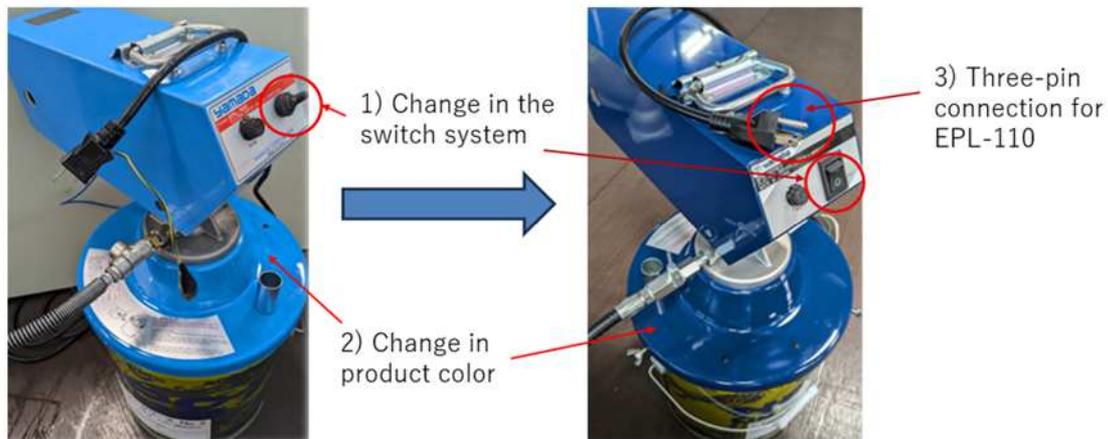

We would like to inform you that our electric grease lubricators EPL-100 and 240 have been redesigned in the following three ways.

Firstly, the switch type has been changed from toggle switch to rocker type.

Secondly, the product color has changed to a darker color, which represents our new corporate identity

Thirdly, when it comes to EPL-110 series, it has a 3-pin connector. If you would like to use a 2-pin connector, please purchase a socket plug (686740), which is available as an option.

Please also refer to the photos below for more details of the three differences stipulated above.

In accordance with the design changes stated above, the product names and codes have been changed as per the table below.

	Old		New
Model name	EPL-100	→	EPL-110 EX
Model No.	880899	→	881249
Model name	EPL-240	→	EPL-240
Model No.	881081	→	881250

The newly redesigned versions are already available!

The specifications and the prices for the new models will be available soon!

If you have any questions, please feel free to contact us.
