Release of New Product - NDP-800BS Series!!

Thank you for your continuous support to YAMADA.

We are very pleased to announce our release of new 3" stainless steel models called NDP-800BS series!

【World-Class Flow. Unmatched Efficiency】

The NDP-800BS Series sets a new global benchmark in performance. By re-engineering the internal structure, we have achieved a massive maximum flow rate of 990 L/min—all while maintaining the superior diaphragm longevity our customers expect.

【Key Improvements】

- Enhanced Performance: A significant increase in discharge volume compared to our previous NDP-80BS models.
- Superior Efficiency: The NDP-800BS series drastically reduces air consumption, lowering your total cost of ownership.

The following table outlines the versatile lineup of the NDP-800BS Series to meet your specific application needs.

Model number	Model code	Port Type	Diaphragm material
855477	NDP-800BSC	JIS/DIN/ANSI FLANGE	CR
855478	NDP-800BSN	JIS/DIN/ANSI FLANGE	NBR
855479	NDP-800BSE	JIS/DIN/ANSI FLANGE	EPDM
855480	NDP-800BSV	JIS/DIN/ANSI FLANGE	FKM
855481	NDP-800BST	JIS/DIN/ANSI FLANGE	PTFE
855482	NDP-800BSH	JIS/DIN/ANSI FLANGE	TPEE
855483	NDP-800BSS	JIS/DIN/ANSI FLANGE	TPO
855484	NDP-800BSH/T	JIS/DIN/ANSI FLANGE	TPEE
855485	NDP-800BSW	JIS/DIN/ANSI FLANGE	PTFE/EPDM

Regarding the technical details, we will inform you soon.

Also, we can already accept the orders. First dispatch will be May 2026!!
